UNITED STATES SECURITIES AND EXCHANGE COMMISSION WASHINGTON, D.C. 20549

FORM 10-Q

☑ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(D) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2010

OR

• TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(D) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from ______ to _____

Commission file number 1-4858

INTERNATIONAL FLAVORS & FRAGRANCES INC.

(Exact name of registrant as specified in its charter)

New York	13-1432060
(State or other jurisdiction of	(I.R.S. Employer
incorporation or organization)	Identification No.)

521 West 57th Street, New York, N.Y. 10019-2960 (Address of principal executive offices) (Zip Code)

Registrant's telephone number, including area code (212) 765-5500

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes \square No o

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes o No o

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer \square

Accelerated filer o

Non-accelerated filer o (Do not check if a smaller reporting company) Smaller reporting company o

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes o No 🗵

Number of shares outstanding as of April 23, 2010: 79,528,718

Notes to Consolidated Financial Statements

These interim statements and management's related discussion and analysis should be read in conjunction with the Consolidated Financial Statements and their related notes and management's discussion and analysis of results of operations and financial condition included in our 2009 Annual Report on Form 10-K ("2009 Form 10-K"). These interim statements are unaudited. We have historically operated on a 52/53 week fiscal year ending on the Friday closest to the last day of the quarter. For ease of presentation, December 31 and March 31 are utilized consistently throughout this report and these financial statements and notes to represent the period-end date. In the opinion of our management, all adjustments, including normal recurring accruals, necessary for a fair presentation of the results for the interim periods have been made.

Note 1. Recent Accounting Pronouncements:

In January 2010, the Financial Accounting Standards Board ("FASB") issued authoritative guidance revising certain disclosure requirements concerning fair value measurements. The guidance requires an entity to disclose separately significant transfers into and out of Levels 1 and 2 of the fair value hierarchy and to disclose the reasons for such transfers. It will also require the presentation of purchases, sales, issuances and settlements within Level 3, on a gross basis rather than a net basis. These new disclosure requirements are effective for our first quarter of 2010, except for the additional disclosure of Level 3 activity, which is effective for fiscal years beginning after December 15, 2010. We did not have any such transfers into and out of Levels 1 and 2 during the three months ended March 31, 2010. We are currently evaluating the full impact of this guidance, but do not expect it to have a material impact on the disclosures in our Consolidated Financial Statements in future filings.

Note 2. Reclassifications:

Certain reclassifications and revisions have been made to the prior years' financial statements to conform to the 2010 presentation. During 2009, the Company revised its method of reporting Research and Development (R&D) credits to be properly reflected as a reduction in R&D expense versus a reduction in income tax expense. The R&D revision impacted the first three months of 2009 in the amount of \$0.8 million. The 2009 revisions had no impact on net income. Reclasses, including their impact, on the Consolidated Statement of Income for the first three months of 2009 are as follows: Cost of goods sold increased \$0.1 million; Research and development decreased \$2.0 million; and Selling and administrative increased \$1.9 million.

Note 3. Net Income Per Share:

Net income per share is based on the weighted average number of shares outstanding. A reconciliation of the shares used in the computation of basic and diluted net income per share is as follows:

	Three Months Ended March 31,	
(Shares in thousands)	2010	2009
Basic	78,767	78,195
Assumed dilution under stock plans	925	552
Diluted	79,692	78,747

Stock options and stock settled appreciation rights ("SSARs") to purchase 363,000 shares and 2,268,000 shares were outstanding as of March 31, 2010 and March 31, 2009, respectively, but were not included in the computation of diluted net income per share for the respective periods since the impact was anti-dilutive.

We have issued shares of Purchased Restricted Stock ("PRS") which contain nonforfeitable rights to dividends and thus are considered participating securities which are required to be included in the computation of basic and diluted earnings per share pursuant to the two-class method. We did not present the two-class method since the difference between basic and diluted net income per share for both common shareholders and PRS shareholders was less than \$0.01 per share for each period and the number of PRS outstanding as of March 31, 2010 and 2009 was immaterial (approximately 0.6% of the total number of common shares outstanding for both periods). Net income allocated to such PRS during the three months ended March 31, 2010 and March 31, 2009 was approximately \$0.4 million and \$0.3 million, respectively.

Note 4. Restructuring and Other Charges:

The Company has progressed in its previously announced negotiations with the Drogheda, Ireland employee representatives regarding separation benefits related to the closure of the Company's compounding facility at that location. Based upon the updated estimates from the separation agreements, the Company has increased its provision for severance costs by approximately \$4 million. The remaining first quarter of 2010 charge is mainly due to accelerated depreciation and other restructuring related costs pertaining to the rationalization of our Fragrance and Ingredients operations in Europe.

We expect to incur total costs related to this restructuring plan of approximately \$27-\$29 million, consisting primarily of \$17-\$18 million of employee termination costs, \$7-\$8 million in plant shutdown and business transition costs and \$2-\$4 million in asset impairments and/or accelerated depreciation of related fixed assets.

Since the third quarter of 2009, we have recorded total expenses of \$19.2 million relating to this plan, of which \$17 million is principally related to severance accruals.

The balance of the employee-related liabilities is expected to be utilized by the end of 2011 as obligations are satisfied.

		Asset-	
	Employee-	Related	
	Related	and Other	Total
Balance December 31, 2009	\$ 18,914	\$ —	\$ 18,914
Additional charges	3,918	1,070	4,988
Payments and other costs	(2,233)	(1,070)	(3,303)
Balance March 31, 2010	\$ 20,599	\$ —	\$ 20,599

Note 5. Goodwill and Other Intangible Assets, Net:

Goodwill by operating segment for both March 31, 2010 and December 31, 2009 is as follows:

Amount
\$319,479
346,103
\$665,582

Trademark and other intangible assets consist of the following amounts:

(DOLLARS IN THOUSANDS)	March 31, 2010	December 31, 2009
Gross carrying value	\$ 165,406	\$ 165,406
Accumulated amortization	(111,997)	(110,458)
Total	\$ 53,409	\$ 54,948

Amortization expense for the three months ended March 31, 2010 and March 31, 2009 was \$1.5 million for both periods. Estimated annual amortization is \$6 million for years 2010 through 2013 and \$5 million for 2014.

Note 6. Comprehensive Income:

Changes in the Accumulated other comprehensive income (loss) ("AOCI") component of shareholders' equity were as follows:

(DOLLARS IN THOUSANDS)	Translation adjustments	Accumulated (losses) gains on derivatives qualifying as hedges, net of tax	Pension and postretirement net liability adjustment, net of tax	Total
Balance December 31, 2009	\$ (68,606)	\$ (2,741)	\$ (199,627)	\$(270,974)

\$(297,659)

Note 7. Borrowings:

Balance March 31, 2009

Debt consists of the following:

(DOLLARS IN THOUSANDS)	Rate	Maturities	March 31, 2010	December 31, 2009
Bank borrowings and overdrafts			\$ 80,782	\$ 76,780
Total current debt			80,782	76,780
Senior notes - 2007	6.38%	2017-27	500,000	500,000
Senior notes - 2006	6.06%	2011-16	325,000	325,000
Bank borrowings	0.42%	2012	75,178	75,166
Japanese Yen notes	2.81%	2011	19,484	19,614
Other			9	16
Deferred realized gains on interest rate swaps			14,405	14,953
Total long-term debt			934,076	934,749
Total debt			\$ 1,014,858	\$ 1,011,529

The estimated fair value at March 31, 2010 of our Senior Notes — 2007 and Senior Notes — 2006 was approximately \$559 million and \$356 million, respectively. The fair value of our senior notes was calculated using discounted cash flows applying current interest rates and current credit spreads based on our own credit risk. The estimated fair value of the remainder of our long-term debt at March 31, 2010 approximated the carrying value.

Note 8. Income Taxes:

As of March 31, 2010, we had \$66 million of gross unrecognized tax benefits recorded in Other liabilities, that if recognized, would be recorded as a component of income tax expense and would affect our effective tax rate.

We have consistently recognized interest and penalties related to unrecognized tax benefits as a component of income tax expense. At March 31, 2010, we had accrued \$10 million of interest and penalties.

We have several tax audits in process and have open tax years with various significant taxing jurisdictions that range primarily from 2002 to 2009. Based on currently available information, we do not believe the ultimate outcome of these tax audits and other tax positions related to open tax years, when finalized, will have a material adverse effect on our financial position, results of operations or cash flows.

The Company leverages its credit worthiness to collateralize tax exposures related to certain administrative proceedings. With the current turmoil in the credit markets, the Company may be precluded from securing similar forms of collateral for unrecognized tax benefits. If this situation occurs, the Company may be required to self-fund any future collateral obligations.

The effective tax rate for the three months ended March 31, 2010 was 28.4% compared with 25.4% in the three months ended March 31, 2009. The increase in the effective tax rate in 2010 is mainly attributable to the mix of earnings across the countries in which we operate. A lower effective tax rate on the restructuring charges also impacted the 2010 rate.

Note 9. Equity Compensation Plans:

We have various plans under which our officers, senior management, other key employees and directors may be granted equity-based awards, including PRS, restricted stock units ("RSUs"), SSARs or stock options to purchase our common stock.

We offer a Long-Term Incentive Plan ("LTIP") for senior management. LTIP plan awards are based on meeting certain targeted financial and/or strategic goals established by the Compensation Committee of the Board of Directors early in each three-year LTIP cycle. Beginning with the LTIP 2007-2009 cycle and each three-year cycle thereafter, the targeted payout is 50% cash and 50% IFF stock. The number of shares for the 50% stock portion is determined by the closing share price on the first trading day at the beginning of the cycle. Generally, the executive must remain employed with IFF during the cycle to receive the payment.

Stock option and SSAR activity for the three months ended March 31, 2010 was as follows:

	0	Weighted Average
(SHARE AMOUNTS IN THOUSANDS)	Options/SSARs	Exercise Price
Balance at December 31, 2009	2,228	\$35.27
Exercised	(391)	\$34.04
Cancelled	(6)	\$43.13
Balance at March 31, 2010	1,831	\$35.50

RSU and PRS activity for the three months ended March 31, 2010 was as follows:

(SHARE AMOUNTS IN THOUSANDS)	RSU	Weighted Average Grant Date Fair Value Per Share
Balance at December 31, 2009	978	\$37.42
Cancelled	(2)	\$41.16
Balance at March 31, 2010	976	\$38.52
(SHARE AMOUNTS IN THOUSANDS)	PRS	Weighted Average Grant Date Fair Value Per Share
Balance at December 31, 2009	498	\$20.28
Granted	39	\$22.90
Cancelled	<u>(4)</u>	\$15.24
Balance at March 31, 2010	533	\$20.52

Pre-tax expense related to all forms of equity compensation was as follows:

	Three Months	Ended March 31,
(DOLLARS IN THOUSANDS)	2010	2009
Restricted stock and RSUs	\$ 5,119	\$ 4,088
Stock options and SSARs	342	671
Total equity compensation expense	\$ 5,461	\$ 4,759

Tax benefits associated with share-based compensation of \$2.0 million and \$1.6 million were recognized for the first quarter of 2010 and 2009, respectively.

Note 10. Segment Information:

We are organized into two business segments, Flavors and Fragrances; these segments align with the internal structure used to manage these businesses. Accounting policies used for segment reporting are described in Note 1 of the Notes to the Consolidated Financial Statements included in our 2009 Form 10-K. We evaluate the performance of business units based on operating profit before interest expense, other income (expense), net and income taxes.

The Global expenses caption represents corporate and headquarters-related expenses which include legal, finance, human resources, certain incentive compensation expenses and other administrative expenses that are not allocated to individual business units.

Our reportable segment information was as follows:

	Three Months Ended March 31, 2010				
(DOLLARS IN THOUSANDS) Net sales	Flavors \$ 300,169	Fragrances \$353,740	Global Expenses —	Consolidated \$653,909	
Operating profit	\$ 61,577	\$ 56,015	\$(13,013)	104,579	
Interest expense				(12,736)	
Other income (expense), net				(2,762)	
Income before taxes on income				\$ 89,081	

		Three Months Ended March 31, 2009			
(DOLLARS IN THOUSANDS) Net sales	Flavors \$266,121	Fragrances \$293,509	Global <u>Expenses</u>	Consolidated \$559,630	
	\$200,121	φ200,000		\$ 555,050	
Operating profit	\$ 52,840	\$ 36,791	\$ (7,782)	81,849	
Interest expense				(19,781)	
Other income (expense), net				1,162	
Income before taxes on income				\$ 63,230	

Segment assets were \$1,155 million for Flavors and \$1,359 million for Fragrances at December 31, 2009. Global assets were \$131 million at December 31, 2009. There were no significant changes in segment assets from December 31, 2009 to March 31, 2010.

Note 11. Retirement Benefits:

Pension expense included the following components:

U.S. Plans	Three Months E	nded March 31,
(DOLLARS IN THOUSANDS)	2010	2009
Service cost for benefits earned	\$ 910	\$ 1,180
Interest cost on projected benefit obligation	5,990	5,985

\$ 2,558	\$ 1,983
8,411	7,136
(10,601)	(9,351)
1,345	697
1,713	465
971	1,031
\$ 2,684	\$ 1,496
	2010 \$ 2,558 8,411 (10,601) 1,345 1,713

During 2010, we may contribute approximately \$12 million to our U.S. pension plans and up to \$16 million to our non-U.S. pension plans. In the three months ended March 31, 2010, no contributions were made to our qualified U.S. pension plan. In the three months ended March 31, 2010, \$4 million of contributions were made to the non-U.S. plans. In the three months ended March 31, 2010, no benefit payments were made with respect to our non-qualified U.S. pension plan.

The financial returns of our investment trusts during the first quarter of 2010 continue to be generally in line with the markets by asset class. We had little exposure to financial institution equities and had no direct investments in sub-prime related assets.

Expense recognized for postretirement benefits other than pensions included the following components:

	Three Months End	ed March 31,
(DOLLARS IN THOUSANDS)	2010	2009
Service cost for benefits earned	\$ 410	\$ 441
Interest on benefit obligation	1,643	1,556
Net amortization and deferrals	(489)	(565)
Total postretirement benefit expense	\$ 1,564	\$ 1,432

We expect to contribute \$6 million to our postretirement benefit other than pension plans in 2010. In the three months ended March 31, 2010, \$1 million of contributions were made.

Note 12. Financial Instruments:

Fair Value

Accounting guidance on fair value measurements specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our market assumptions. These two types of inputs create the following fair value hierarchy:

- Level 1-Quoted prices for *identical* instruments in active markets.
- Level 2-Quoted prices for *similar* instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.
- Level 3-Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

This hierarchy requires us to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value.

When available, we generally use quoted market prices to determine fair value, and classify such items in Level 1. We determine the fair value of structured liabilities (where performance is linked to structured interest rates, inflation or currency risks) using the LIBOR (London InterBank Offer Rate) swap curve and forward interest and exchange rates at period end. Such instruments are classified as Level 2 based on the observability of significant inputs to the model. The fair value of these liabilities, net was approximately \$3.8 million at March 31, 2010. We do not have any instruments classified as Level 3.

The market valuation adjustments include a bilateral or "own" credit risk adjustment applied to reflect our own credit risk when valuing all liabilities measured at fair value, in accordance with the requirements under the accounting guidance. The methodology is consistent with that applied in generating counterparty credit risk adjustments, but incorporates our own credit risk as observed in the credit default swap market. As for counterparty credit risk, our own credit risk adjustments include the impact of credit risk mitigants. The estimated change in the fair value of these liabilities due to such changes in our own credit risk (or instrument-specific credit risk) was immaterial as of March 31, 2010.

Derivatives

We periodically enter into foreign currency forward contracts with the objective of reducing exposure to cash flow volatility associated with our intercompany loans, foreign currency receivables and payables, and anticipated purchases of certain raw materials used in operations. These contracts generally involve the exchange of one currency for a second currency at a future date, have maturities not exceeding three months and are with counterparties which are major international financial institutions.

In 2003, we executed a 10-year Yen — U.S. dollar currency swap related to the monthly sale and purchase of products between the U.S. and Japan which has been designated as a cash flow hedge.

In 2005, we entered into an interest rate swap agreement effectively converting the fixed rate on our long-term Japanese Yen borrowings to a variable short-term rate based on the Tokyo InterBank Offering Rate (TIBOR) plus an interest markup. This swap was designated as a fair value hedge. Any amounts recognized in interest expense for both periods presented have been insignificant.

In February 2009, we paid \$16 million to close out the \$300 million U.S. Dollar ("USD") LIBOR to European InterBank Offer Rate (EURIBOR) interest rate swap. As this swap was designated as a net investment hedge, \$12 million of the loss was deferred in AOCI where it will remain until the Euro net investment is divested and \$4 million was included as a component of interest expense during the three months ended March 31, 2009.

In May 2009 we entered into a forward currency contract which qualified as a net investment hedge, in order to protect a portion of our net European investment from foreign currency risk. We recognized a \$1.6 million loss during the year ended December 31, 2009, which was deferred as a component of AOCI. The ineffective portion of this net investment hedge was not material. This forward currency contract matured before the end of the second quarter of 2009. Upon its maturity, we entered into an intercompany loan payable in the amount of 40 million Euros in order to protect a portion of our net European investment from foreign currency risk. This intercompany loan was designated as a net investment hedge and experienced no ineffectiveness while outstanding. We recognized a \$3.1 million loss during the year ended December 31, 2009, which was deferred as a component of AOCI.

In March 2010, we entered into three forward currency contracts which qualified as net investment hedges, in order to protect a portion of our net European investments from foreign currency risk. One of these three forward currency contracts matured during the three months ended March 31, 2010.

Table of Contents

The following tables show the Company's derivative instruments measured at fair value (Level 2 of the fair value hierarchy) as reflected in the Consolidated Balance Sheets as of March 31, 2010 and December 31, 2009 (in millions):

		Deri Desigi Hee	/alue of vatives nated as lging uments	Deriva Desig He	31, 2010 Value of ttives Not nated as dging uments		al Fair alue

Total	\$0.9	\$1.6		\$(0.3)	\$(0.2)

. . .

(1) Ten year swap executed in 2003.

(2) Contract matured during the three months ended March 31, 2010.

(*) No ineffectiveness was experienced in the above noted cash flow hedge during the three months ended March 31, 2010 and March 31, 2009. The ineffective portion of the net investment hedge was not material during the three months ended March 31, 2010 and March 31, 2009.

Note 13. Commitments and Contingencies:

We are party to a number of lawsuits and claims related primarily to flavoring supplied by us and by other third party suppliers, in most instances to manufacturers of butter flavored popcorn. A total of 13 actions involving 225 claimants are currently pending against us and other flavor suppliers and related companies based on similar claims of alleged respiratory illness. In certain cases, plaintiffs are unable to demonstrate that they have suffered a compensable loss as a result of such exposure, or that injuries incurred in fact resulted from exposure to our flavor products. In most of the complaints, the damages sought by the plaintiffs are not alleged at the pleading stage and may not be specified until a much later time in the proceeding, if at all. During the three months ended March 31, 2010, there has been 1 new action filed involving 8 claimants and 2 actions involving 4 claimants have been settled for a net out-of-pocket amount which is not material to us including insurance recovery, and 3 other cases have been consolidated with other pending cases. In addition, 56 claimants were voluntarily dismissed from continuing cases based on a determination that their claims lacked merit.

At each balance sheet date, or more frequently as conditions warrant, we review the status of each pending

¹⁵

claim, as well as our insurance coverage for such claims with due consideration given to potentially applicable deductibles, retentions and reservation of rights under insurance policies with respect to all these matters. The liabilities are recorded at management's best estimate of the outcome of the lawsuits and claims, taking into consideration the facts and circumstances of the individual matters as well as past experience on similar matters. Amounts accrued are also based upon our historical experience with these claims, including claims which have been closed with no liability as well as claims settled to date. Settled claims, since the inception of the flavor-related claims, have not been material to us in any reporting period including insurance recovery. At each balance sheet date, the key issues that management assesses are whether it is probable that a loss as to asserted or unasserted claims has been incurred and if so, whether the amount of loss can be reasonably estimated. We are not able to provide an amount or range of estimated loss in excess of the liability currently accrued at the balance sheet date as to asserted and unasserted claims because such estimate cannot reasonably be made.

While the ultimate outcome of any litigation cannot be predicted, management believes that adequate provision has been made with respect to all known claims. Based on information presently available and in light of the merits of our defenses and the availability of insurance, we do not expect the outcome of the above cases, singly or in the aggregate, to have a material adverse effect on our financial condition, results of operations or liquidity. There can be no assurance that future events will not require us to increase the amount we have accrued for any matter or accrue for a matter that has not been previously accrued.

We periodically assess our insurance coverage for all known claims, taking into account aggregate coverages by occurrence, limits of coverage, selfinsured retentions and deductibles, historical claims experience and claims experience with insurers.

We record the expected liability with respect to these claims in Other liabilities and expected recoveries from our insurance carrier group in Other assets. We believe that realization of the insurance receivable is probable due to the terms of the insurance policies and the payment experience to date of the carrier group as it relates to these claims.

Over the past approximately 20 years, various federal and state authorities and private parties have claimed that we are a Potentially Responsible Party ("PRP") as a generator of waste materials for alleged pollution at a number of waste sites operated by third parties located principally in New Jersey and have sought to recover costs incurred and to be incurred to clean up the sites.

We have been identified as a PRP at ten facilities operated by third parties at which investigation and/or remediation activities may be ongoing. We analyze our liability on a regular basis and accrue for environmental liabilities when they are probable and estimable. At March 31, 2010, we estimated our share of the total future costs for these sites to be less than \$5 million.

While joint and several liability is authorized under federal and state environmental laws, we believe that the amounts we have paid and anticipate paying in the future for clean-up costs and damages at all sites are not and will not be material to our financial condition, results of operations or liquidity. This conclusion is based upon, among other things, the involvement of other PRP's at most sites, the status of the proceedings, including various settlement agreements and consent decrees, the extended time period over which payment will likely be made and an agreement reached in July 1994 with three of our liability insurers pursuant to which defense costs and indemnity amounts payable by us in respect of the sites will be shared by the insurers up to an agreed amount.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

We are a leading creator and manufacturer of flavor and fragrance compounds used to impart or improve the flavor or fragrance in a wide variety of consumer products. The precise size of the global market for flavors and fragrances is difficult to determine because the industry is highly fragmented, both geographically and along product lines; there are a limited number of publicly traded companies in the industry; certain customers maintain in-house capabilities fulfilling a portion of their flavor or fragrance needs; and the quality and depth of market information in developing regions of the world is limited.

IFF is organized into two business units that reflect our flavor and fragrance businesses. Flavor compounds are sold to the food and beverage industries for use in consumer products such as prepared foods, beverages, dairy, food and confectionery products. The fragrance business unit consists of three fragrance categories: functional fragrances, including fragrance compounds for personal care (e.g., soaps) and household products (e.g., detergents, softeners, cleaning agents, candles and air fresheners); fine fragrance and beauty care, including perfumes, colognes and toiletries; and ingredients, consisting of natural and synthetic ingredients that can be combined with other materials to create unique functional and fine fragrance compounds. Major fragrance customers include the cosmetics industry, including perfume and toiletries manufacturers, and the household products industry, including manufacturers of soaps, detergents, fabric care, household cleaners and air fresheners. Approximately 55% of our ingredient production is consumed internally; the balance is sold to third party customers.

The under-pinning of structural growth for the flavor and fragrance industry are population growth, an expanding middle class and technology. Changing social habits resulting from factors such as increases in personal income, leisure time, health and wellness and urbanization stimulate demand for consumer products utilizing flavors and fragrances. These developments also drive the creation and development of new molecules, technologies and/or solutions that facilitate and improve the end-use consumption of flavors and fragrances in consumer products.

Flavors and fragrances are generally:

- created for the exclusive use by a specific customer;
- sold in powder or liquid form, in amounts ranging from a few pounds to several tons depending on the nature of the end product in which they are used;
- a small percentage of the volume and cost of the end product sold to the consumer; and
- a major factor in directing consumer preference for consumer packaged goods.

The flavors and fragrances industry is impacted by macroeconomic factors in all product categories and geographic regions. Such factors include the impact of currency on the price of raw materials and operating costs as well as on translation of reported results. In addition, IFF is susceptible to margin pressures due to customers' cost improvement programs and input cost increases. However, these pressures can often be mitigated through a combination of product reformulation, sourcing strategies and material substitution plus internal cost containment efforts, and the development of innovative and streamlined solutions and processes.

STRATEGIC DRIVERS

To increase shareholder value, we pursue and develop a value-creation model that encompasses three main elements: investing in research & development to identify and commercialize new, innovative materials and delivery systems; maintaining a deep understanding of both consumer preferences and consumer product brands; and excellence in our creative capabilities. Our goal is to deliver differentiated solutions that enable our customers' brands to win in the marketplace.

In order to pursue these strategies, our organization is focused on ensuring that we efficiently create, produce, and sell unique, superior, and economically competitive products through our world class integration of research and development, consumer insight, creativity, via excellence in execution. We believe we are well positioned to achieve success by targeting strategically important global and regional customers in both developed and emerging markets; attracting, developing and retaining top talent; investing in research and development; and fostering a culture of innovation, accountability and continuous improvement.

Operations

Comparison of First Quarters of 2010 and 2009

Sales Commentary

First quarter 2010 sales totaled \$654 million, an increase of 17% from the prior year quarter. The significant acceleration of growth (+13% in local currency (LC) terms) from the greater levels reported in the second half of

2009 reflects re-stocking in our customers' supply chain across both businesses, continued strong success in driving new business with both new and existing customers, some recovery in demand, and lower base period comparisons in the first quarter 2009, primarily in Fine Fragrances, Functional Fragrances and Ingredients. Overall, net new business accounted for more than a third of the LC sales growth with higher existing business volumes comprising the vast majority of the remaining growth. Foreign currency movements added 4% to year-over-year sales growth in the quarter.

On a reported basis Flavor sales increased 13%; excluding the impact of foreign currency translation, sales for the Flavors business increased 8% from the prior year period. The improvement was equally driven by higher volume (including some elements of re-stocking) and net new business. Solid growth was experienced across all product categories. Double digit growth was seen in Greater Asia and Europe, Africa and Middle East (EAME) as a result of higher volumes and new business particularly in the Beverage and Savory categories. Growth in both regions benefited from investments made last year to strengthen our commercial and development capabilities. Sales in North America were down slightly as new business in Dairy and specialty items was offset by weakness in Confectionery sales. Latin America had solid growth, up 6% in LC as new wins and volume recovery in Confectionery and Savory more than offset the effects of non-strategic business lost in the second half of 2009.

Fragrance sales increased significantly, up 21% on a reported basis and 18% in LC terms. Approximately two-thirds of the improvement is due to increased volume (including customer re-stocking efforts) and comparisons versus weak prior year sales in Fine Fragrance and Ingredients with the balance attributable to new business. Volume gains is attributable to customer re-stocking decisions, a bounce back in demand driven by increased customer promotional activities, mainly in Fine Fragrance, and lower base period comparisons. Overall, Fine and Beauty LC sales increased 28% versus last year, driven by customer re-stocking, new business, a recovery in demand and low prior year activity levels. LC Functional Fragrance sales increased 10%, driven by continued excellent fabric care performance. All regions delivered double-digit LC sales gains, led by Greater Asia and EAME (Fine Fragrance and Ingredients).

Table of Contents

Sales performance by region and product category in comparison to the prior year quarter in both reported dollars and local currency, where applicable, was as follows:

			% Change in Sales-First Quarter 2010 vs First Quarter 2009				
		Fine & Beauty Care	Functional	Ingredients	Total Frag.	Flavors	Total
North America	Reported	24%	-2%	22%	12%	-1%	5%
EAME	Reported	36%	12%	34%	25%	18%	22%
	Local Currency	31%	8%	29%	21%	12%	17%
Latin America	Reported	38%	6%	10%	17%	13%	16%
	Local Currency	31%	5%	9%	14%	6%	11%
Greater Asia	Reported	20%	33%	10%	25%	21%	23%
	Local Currency	19%	31%	9%	23%	14%	17%
Total	Reported	31%	12%	24%	21%	13%	17%
	Local Currency	28%	10%	21%	18%	8%	13%

§ North America Fine & Beauty sales growth was driven primarily by new wins and re-stocking, and weak year ago comparison levels. The strong performance in Ingredients reflects broad-based volume gains and weak market conditions last year. Functional fragrance sales were down 2% as strong fabric care growth was not enough to offset home care volume losses. Flavors business declined slightly in line with the overall market.

§ EAME showed strong sales gains across all categories, led by net new wins and demand recovery in Fine Fragrance and Ingredients as well as new wins in developing markets for Flavors, notably within the Beverage and Confectionery categories. Customer re-stocking also supported growth across most categories.

§ Latin America sales performance was driven by a strong recovery in Fine & Beauty, new wins in Functional Fragrance and new wins and volume recovery in Confectionery and Savory for Flavors that more than offset the effects of non-strategic business lost last year.

§ Greater Asia delivered double-digit LC sales growth in all categories, except Ingredients, whose growth was 9%. Fine & Beauty gains were driven by new wins in Hair Care and Toiletries as well as demand recovery for Fine Fragrance off a weak prior year base. We continue to experience strong growth in Fabric and Personal Wash within Functional Fragrances while Flavor sales growth was driven by new product introductions in Savory and Beverage.

While we believe that the impact of customer restocking is an important driver of year-over-year sales growth, it is not possible to specifically quantify the impact either in total or by category.

Consolidated Operating Results

The percentage relationship of cost of goods sold and other operating expenses to reported sales is as follows:

	Three Monti March	
	2010	2009
Cost of goods sold	58.7%	60.3%
Research and development expenses	8.0%	8.5%
Selling and administrative expenses	16.3%	16.3%

Cost of goods sold includes the cost of materials and manufacturing expenses; raw materials generally constitute 70% of the total. Research and development (R&D) expenses are for the development of new materials and delivery systems, new flavor and fragrance compounds, technical product support, compliance with governmental regulations, and help in maintaining relationships with customers who are often dependent on technological advances. Selling and administrative expenses support our sales and operating levels.

Cost of goods sold, as a percentage of sales, decreased to 58.7% in 2010 compared to 60.3% during 2009. Approximately half of the improvement versus 2009 is attributable to favorable input costs, with the balance driven by better absorption resulting from higher volumes, and continued margin recovery efforts.

R&D expenses increased approximately \$5 million from the prior year. The increase is due to higher incentive compensation accruals of \$3 million and currency movements of \$1 million, with the remaining amount due to targeted investments to support growth in emerging markets.

Selling and administrative expenses (S&A), as a percentage of sales, remained flat at 16.3% compared to the first quarter of 2009 reflecting the significant increase in sales combined with ongoing cost discipline. Overall spending increased \$15 million versus the prior year quarter, reflecting higher provisions for incentive compensation of \$9 million, with the balance due to foreign currency movements and implementation costs associated with the rationalization of our Fragrance and Ingredients' operations in Europe.

Restructuring and Other Charges

Restructuring and other charges primarily consist of separation costs for employees, including severance, outplacement and other benefit costs.

The Company has progressed in its previously announced negotiations with the Drogheda, Ireland employee representatives regarding separation benefits related to the closure of the Company's compounding facility at that location. Based upon the updated estimates from the separation agreements, the Company has increased its provision for severance costs by approximately \$4 million. The remaining first quarter of 2010 charge is mainly due to accelerated depreciation and other restructuring related costs pertaining to the rationalization of our Fragrance and Ingredients operations in Europe.

	Restructuring Charges 2010
(In Thousands)	2010
Fragrances	\$ 4,988
Total	\$ 4,988

Interest Expense

In the first quarter 2010, interest expense totaled \$12.7 million compared to \$19.8 million in 2009. The 2009 amount includes \$4 million of interest paid on the close-out of a cross-currency interest rate swap classified as a net investment hedge. The additional reduction versus 2009 reflects certain debt repayments in connection with an advance prepayment of a Japanese Yen term loan and certain private placement loans of more than \$210 million made during the second half of 2009. Average cost of debt was 5.0% for the 2010 period compared to 6.0% in 2009.

Other (Income) Expense, Net

Other expense of \$2.8 million in the first three months of 2010 declined \$4.0 million versus other income of \$1.2 million in 2009, mainly due to losses on foreign exchange transactions, compared to gains in the prior year.

Income Taxes

The effective tax rate was 28.4% for the three months ended March 31, 2010 as compared to a rate of 25.4% in the prior year quarter. The increase in the effective tax rate in 2010 is mainly attributable to the mix of earnings across the countries in which we operate. A lower effective tax rate on the restructuring charges also impacted the 2010 rate.

Operating Results by Business Unit

We evaluate the performance of business units based on operating profit before interest expense, other income (expense), net and income taxes. See Note 10 to our Consolidated Financial Statements for the reconciliation to Income before taxes.

Flavors

In the first quarter 2010, Flavors operating profit totaled \$62 million, or 20.5% as a percentage of sales, compared to \$53 million or 19.9% in 2009. The improvement in profitability was mainly driven by strong sales growth and better absorption, improving input costs and the benefits of our cost control initiatives. These improvements were partially offset by investments in R&D and higher incentive compensation costs.

Fragrances

Fragrance operating profit for the first quarter of 2010 was \$56 million or 15.8%, as a percentage of sales, compared to \$37 million or 12.5% reported in 2009. The improvement in profit was driven by higher volumes and lower input costs plus benefits associated with cost reduction initiatives implemented last year. The 2010 period includes \$5 million of restructuring related charges related to the rationalization of our European fragrance manufacturing footprint and higher incentive compensation expense.

Global Expenses

Global expenses represent corporate and headquarters-related expenses which include legal, finance, human resources and other administrative expenses that are not allocated to an individual business unit. In 2010, Global expenses for the first quarter were \$13 million compared to \$8 million during the first quarter of 2009. The increase is primarily due to higher incentive compensation accruals.

Financial Condition

Cash and cash equivalents totaled \$90 million at March 31, 2010 compared to \$80 million at December 31, 2009. Working capital of \$696 million at March 31, 2010 was comparable to approximately \$644 million at December 31, 2009. Additions to property, plant and equipment for the three-month period ended March 31, 2010 totaled \$13 million. Gross additions to property, plant and equipment are expected to approximate 4% of sales for the full year 2010.

Operating cash flows in the first quarter of 2010 were an inflow of \$32 million, compared to an outflow of \$14 million in the prior year period. The improvement reflects higher earnings in the current year period combined with improvements in working capital management that began in the second half of 2009. The large improvement in core working capital was driven by accounts payable reflecting a more disciplined approach in our "purchase to pay" process and to a lesser extent due to higher purchasing activity. The improvement in receivables is due to a reduction in our past due accounts, partially offset by a higher volume of sales. The change in our inventory movement year-over-year is mainly due to higher raw material purchases supporting the increased sales volume.

At March 31, 2010, we had \$1,015 million of debt outstanding comparable to the \$1,012 million outstanding at December 31, 2009.

In February 2009, we closed out the \$300 million USD London InterBank Offer Rate (LIBOR) to European InterBank Offer Rate (EURIBOR) interest rate swap for \$16 million, of which a \$12 million loss was deferred in AOCI where it will remain until the Euro net investment is divested and \$4 million was included in earnings as a component of interest expense during the first quarter of 2009.

The Company pays a quarterly cash dividend of \$0.25 per share to shareholders, which was unchanged in both 2010 and 2009. During the first quarter of 2010, we funded a single quarterly dividend payment whereas we funded two quarters during the first quarter 2009.

No shares were repurchased on the open market during the three months ended March 31, 2010.

The Company leverages its credit worthiness to collateralize tax exposures related to certain administrative proceedings. With the current turmoil in the credit markets, the Company may be precluded from securing similar forms of collateral for unrecognized tax benefits. If this situation occurs, the Company may be required to self-fund any future collateral obligations.

We continue to generate strong operating cash flows and our revolving credit facility (the "Facility") remains in place. As of March 31, 2010, the drawdown capacity on the Facility is approximately \$600 million. Cash flows from operations and availability under our existing credit facilities are expected to be sufficient to fund our currently anticipated normal capital spending and other expected cash requirements for at least the next eighteen months.

Table of Contents

The Facility contains the most restrictive covenants requiring us to maintain, at the end of each fiscal quarter, a ratio of net debt for borrowed money to adjusted EBITDA in respect of the previous 12-month period of not more than 3.25 to 1. At March 31, 2010, we were in compliance with all financial and other covenants. At March 31, 2010 our Net Debt/ adjusted EBITDA (1) was 1.95 to 1 as defined by the debt agreements, well below the financial covenants of existing outstanding debt. Failure to comply with the financial and other covenants under these agreements would constitute default and would allow the lenders to accelerate the maturity of all indebtedness under the related agreement. If such acceleration were to occur, we would not have sufficient liquidity available to repay the indebtedness. We would likely have to seek amendments under the agreements for relief from the financial covenants or repay the debt with proceeds from the issuance of new debt or equity, and/or asset sales, if necessary. We may be unable to amend the agreements or raise sufficient capital to repay such obligations in the event the maturities are accelerated.

(1) Adjusted EBITDA and Net Debt, which are non-GAAP measures used for these covenants, are calculated in accordance with the definition in the debt agreements. In this context, these measures are used solely to provide information on the extent to which we are in compliance with debt covenants and may not be comparable to adjusted EBITDA and Net Debt used by other companies. Reconciliations of adjusted EBITDA to net income and net debt to total debt are as follows:

	12 Months E	nded March 31,
(In Millions)	2010	2009
Net income	\$212.1	\$220.9
Interest expense	54.7	75.6
Income taxes	90.3	47.1
Depreciation	73.7	68.9
Amortization	6.2	6.2
Specified items (1)	29.6	19.3
Adjusted EBITDA	\$466.6	\$438.0

Cautionary Statement Under the Private Securities Litigation Reform Act of 1995

Statements in this Quarterly Report, which are not historical facts or information, are "forward-looking statements" within the meaning of The Private Securities Litigation Reform Act of 1995. Such forward-looking statements are based on management's current assumptions, estimates and expectations. Certain of such forward-looking information may be identified by such terms as "expect", "anticipate", "believe", "outlook", "guidance", "may" and similar terms or variations thereof. All information concerning future revenues, tax rates or benefits, interest and other savings, earnings and other future financial results, financial position, or events constitutes forward-looking information. Such forward-looking statements are based on a series of expectations, assumptions, estimates and projections about the Company, are not guarantees of future results, performance or events, and involve significant risks, uncertainties and other factors, including assumptions and projections, for all forward periods. Actual results of the Company may differ materially from any future results, performance or events

expressed or implied by such forward-looking statements. Such factors include, among others, the following: general economic and business conditions in the Company's markets, especially given the current disruption in global economic conditions, including economic and recessionary pressures; energy and commodity prices; decline in consumer confidence and spending; significant fluctuations in the value of the U.S. dollar; population health and political uncertainties, and the difficulty in projecting the short and long-term effects of global economic conditions; movements in interest rates; continued volatility and deterioration of the capital and credit markets, including continued disruption in the commercial paper market, and any adverse impact on our cost of and access to capital and credit; fluctuations in the price, quality and availability of raw materials; the Company's ability to implement its business strategy, including the achievement of anticipated cost savings, profitability and growth targets; the impact of currency fluctuation or devaluation in the Company's hedging and risk management strategies; the outcome of uncertainties related to litigation; the impact of possible pension funding obligations and increased pension expense on the Company's cash flow and results of operations; and the effect of legal and regulatory proceedings, as well as restrictions imposed on the Company, its operations or its representatives by U.S. and foreign governments. The Company intends its forward-looking statements to speak only as of the time of such statements and does not undertake or plan to update or revise them as more information becomes available or to reflect changes in expectations, assumptions or results. The Company can give no assurance that such expectations or forward-looking statements will prove to be correct. An occurrence of, or any material adverse change in, one or more of the risk factors or risks and uncertainties referred to in this report or included in our other periodic reports filed wi

Any public statements or disclosures by IFF following this report that modify or impact any of the forward-looking statements contained in or accompanying this report will be deemed to modify or supersede such outlook or other forward-looking statements in or accompanying this report.

Non-GAAP Financial Measures

The Company uses certain non-GAAP financial operating measures. In certain instances, we exclude the effects of exchange rate fluctuations when discussing our historical performance. Such information is supplemental to information presented in accordance with GAAP and is not intended to represent a presentation in accordance with GAAP. In discussing our historical and expected future results and financial condition, we believe it is meaningful for investors to be made aware of and to be assisted in a better understanding of, on a period-to-period comparative basis, of financial amounts both including and excluding these identified items, as well as the impact of exchange rate fluctuations on operating results and financial condition. We believe such additional non-GAAP information provides investors with an overall perspective of the period-to-period performance of our core business. In addition, management internally reviews each of these non-GAAP measures to evaluate performance on a comparative period-to-period basis in terms of absolute performance, trends and expected future performance with respect to our core continuing business. A material limitation of these non-GAAP measures is that such measures do not reflect actual GAAP amounts. We compensate for such limitations by presenting the accompanying reconciliation to the most directly comparable GAAP measure. These non-GAAP measures may not be comparable to similarly titled measures used by other companies.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

There are no material changes in market risk from the information provided in the Company's 2009 Annual Report on Form 10-K.

Item 4. Controls and Procedures

The Chief Executive Officer and Chief Financial Officer with the assistance of other members of our management, have evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on such evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective as of the end of the period covered by this Quarterly Report on Form 10-Q.

We have established controls and procedures designed to ensure that information required to be disclosed in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, is recorded,

processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and is accumulated and communicated to management, including the principal executive officer and the principal financial officer, to allow timely decisions regarding required disclosure.

The Chief Executive Officer and Chief Financial Officer have also concluded that there have not been any changes in our internal control over financial reporting during the quarter ended April 2, 2010 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1A. Risk Factors

There have been no material changes in the risk factors previously disclosed in the Company's 2009 Form 10-K.

Item 1. Legal Proceedings

We are subject to various claims and legal actions in the ordinary course of our business. For purposes of reporting these actions, Bush Boake Allen, Inc. ("BBA"), a wholly-owned subsidiary of IFF, and/or IFF are referred to as the "Company".

In September 2001, the Company was named as a defendant in a purported class action brought against it in the Circuit Court of Jasper County, Missouri, on behalf of employees of a plant owned and operated by Gilster-Mary Lee Corp. in Jasper, Missouri ("<u>Benavides</u> case"). The plaintiffs alleged that they sustained respiratory injuries in the workplace due to the use by Gilster-Mary Lee of a BBA and/or IFF flavor.

In January 2004, the Court ruled that class action status was not warranted. As a result of this decision, each of the 47 plaintiff cases was to be tried separately. Subsequently, 8 cases were tried to a verdict, 4 verdicts resulted for the plaintiffs and 4 verdicts resulted for the Company, all of which were appealed by the losing party. Subsequently all plaintiff cases related to the <u>Benavides</u> case, including those on appeal, were settled.

Thirteen actions based on similar claims of alleged respiratory illness due to workplace exposure to flavor ingredients are currently pending against the Company and other flavor suppliers and related companies.

In July 2004, the Company and another flavor supplier were named defendants, and subsequently 9 third and fourth party defendants were added, in a lawsuit by 4 former workers (and 2 spouses for loss of consortium) at a Ridgeway, Illinois factory in an action brought in the Circuit Court for the Second Judicial Circuit, Gallatin County, Illinois (<u>Batteese</u> case). In August 2005, the Company and 22 other companies were named defendants in a lawsuit by 2 former employees of the Gilster-Mary Lee facility in McBride, Missouri in the Missouri Circuit Court, 32nd Judicial Circuit (<u>Fults</u> case). This case has been settled. In August 2006, the Company and 3 other flavor and chemical suppliers were named defendants in a lawsuit by 10 current and former employees of the Gilster-Mary Lee facility in Jasper, Missouri Circuit Court of Jasper County (<u>Arles</u> case) and 1 former employee in the same Court (<u>Bowan</u> case).

In January 2007, the Company and another flavor supplier were named defendants in a lawsuit in Hamilton County, Ohio Court of Common Pleas by 57 current and former employees (plus 28 spousal loss of consortium claims) of two separate Marion, Ohio factories (<u>Aldrich</u> case). In June 2007, the Company and another flavor supplier were named defendants in a lawsuit filed in Hamilton County, Ohio Court of Common Pleas by 17 current and former employees (plus 6 spousal loss of consortium claims) of a Marion, Ohio facility (<u>Arnold</u> case). In July 2007, the Company and another flavor manufacturer were named defendants in a lawsuit filed in Hamilton County, Ohio Court of Common Pleas by 17 current and former were named defendants in a lawsuit filed in Hamilton County, Ohio Court of Common Pleas by 35 current and former workers (plus 13 spousal loss of consortium claims) of two Marion, Ohio facilities (<u>Adamson</u> case). In July 2007, the Company was joined as a defendant in a case filed in June 2005 against 5 companies and a trade association in the 8th Judicial District Court of Montana by the widow of the former owner/operator of a popcorn business in Montana (<u>Yatsko</u> case).

In March 2008, the Company and another flavor supplier were named defendants in two lawsuits in the Hamilton County, Ohio Court of Common Pleas, one by 9 current and former employees and the spouses of two such employees of a popcorn plant in Marion, Ohio (<u>Ferguson</u> case) and the other by 10 current and former employees and 3 spouses of such employees of the same plant (<u>Brown</u> case). In May 2008, the Company and 6 other companies were named defendants in a lawsuit in the District Court of Colorado by a consumer of microwave popcorn and his spouse (<u>Watson</u> case). In August 2008, the Company and 7 other flavor and material suppliers were named defendants in a lawsuit by 9 plaintiffs (plus 8 loss of consortium claims) in the Hamilton County Court of Common Pleas (<u>Auld</u> case).

In September 2009, the Company, another flavor supplier and an employer were named as defendants in a

lawsuit by the child of a worker at a Ridgeway, Illinois factory in an action brought in the Circuit Court of Cook County, Illinois (<u>Patton</u> case). In September 2009, the Company and another flavor supplier were named as defendants in a lawsuit by two workers and one spouse (<u>Gerfen</u> case) and by another worker (<u>Bradshaw</u> case) at a Marion, Ohio microwave popcorn plant in actions filed in the Court of Common Pleas, Hamilton County, Ohio. In October 2009, the Company and another flavor supplier were named as defendants in a lawsuit by a worker at a Marion, Ohio microwave popcorn plant in an action filed in the Court of Common Pleas, Hamilton County, Ohio (<u>Criswell</u> case). In December 2009, the Company, 5 other flavor manufacturers and 5 microwave popcorn manufacturers and distributors were named defendants in a lawsuit in the U.S. District Court for the Northern District of Iowa by a consumer of microwave popcorn and her husband (<u>Daughetee</u> case).

In January 2010, the Company was named as a defendant in a lawsuit by 4 former workers (and their spouses) at a Ridgeway, Illinois factory in an action brought in the U.S. District Court for the Southern district of Illinois (<u>Barker</u> case).

The Company believes that all IFF and BBA flavors at issue in these matters meet the requirements of the U.S. Food and Drug Administration and are safe for handling and use by workers in food manufacturing plants when used according to specified safety procedures. These procedures are detailed in instructions that IFF and BBA provided to all their customers for the safe handling and use of their flavors. It is the responsibility of IFF's customers to ensure that these instructions, which include the use of appropriate engineering controls, such as adequate ventilation, proper handling procedures and respiratory protection for workers, are followed in the workplace.

At each balance sheet date, or more frequently as conditions warrant, the Company reviews the status of each pending claim, as well as its insurance coverage for such claims with due consideration given to potentially applicable deductibles, retentions and reservation of rights under its insurance policies, and the advice of its outside legal counsel and a third party expert in modeling insurance deductible amounts with respect to all of these matters. While the ultimate outcome of any litigation cannot be predicted, management believes that adequate provision has been made with respect to all known claims. Based on information presently available and in light of the merits of its defenses and the availability of insurance, the Company does not expect the outcome of the above cases, singly or in the aggregate, to have a material adverse effect on the Company's financial condition, results of operation or liquidity. There can be no assurance that future events will not require the Company to increase the amount it has accrued for any matter or accrue for a matter that has not been previously accrued. See Note 13 of the Notes to the Consolidated Financial Statements.

Over the past 20 years, various federal and state authorities and private parties have claimed that the Company is a Potentially Responsible Party ("PRP") as a generator of waste materials for alleged pollution at a number of waste sites operated by third parties located principally in New Jersey and have sought to recover costs incurred and to be incurred to clean up the sites.

The Company has been identified as a PRP at ten facilities operated by third parties at which investigation and/or remediation activities may be ongoing. The Company analyzes its liability on a regular basis. The Company accrues for environmental liabilities when they are probable and estimable. The Company estimates its share of the total future cost for these sites to be less than \$5 million.

While joint and several liability is authorized under federal and state environmental laws, the Company believes the amounts it has paid and anticipates paying in the future for clean-up costs and damages at all sites are not and will not be material to the Company's financial condition, results of operations or liquidity. This conclusion is based upon, among other things, the involvement of other PRPs at most sites, the status of proceedings, including various settlement agreements and consent decrees, the extended time period over which payments will likely be made and an agreement reached in July 1994 with three of the Company's liability insurers pursuant to which defense costs and indemnity amounts payable by the Company in respect of the sites will be shared by the insurers up to an agreed amount.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds —

(c) Issuer Purchases of Equity Securities

The following table presents the total number of shares purchased during the first quarter of 2010, the average price paid per share, the number of shares that were purchased as part of a publicly announced repurchase program, and the maximum number of shares that may yet be purchased under the program for the quarter ended March 31, 2010:

	Total Number of Shares Purchased (1)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program (1)	Maximum Number of Shares That May Yet Be Purchased Under the Program (1)
January 1 — 31, 2010		—	—	1,949,065
February 1 — 28, 2010		—	—	1,949,065
March 1 — 31, 2010		—	—	1,949,065
Total shares purchased		—	—	

⁽¹⁾ In July 2007 our Board of Directors authorized a stock repurchase plan (the "2007 Share Repurchase Plan") to repurchase up to 15% (which represents an aggregate 13,350,000 shares) or \$750 million worth of our outstanding common stock, whichever is less. As of March 31, 2010, we are subject to the 15% limitation and as such, we still have the ability to repurchase approximately 2 million shares. There is no stated expiration for the July 2007 share repurchase program.

Item 6. Exhibits

- 10.1 International Flavors & Fragrances Inc. 2010 Named Executive Officer Compensation Matters
- 31.1 Certification of Douglas D. Tough pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

International Flavors & Fragrances Inc. 2010 Named Executive Officer Compensation Matters

A summary description of certain compensation arrangements for the Company's Chief Executive Officer ("CEO") and the executive officers who were named in the Company's Proxy Statement for its 2010 Annual Meeting of Shareholders and who are still employed by the Company (collectively, the "Named Executive Officers") is provided below. Unless otherwise noted, these arrangements were approved on March 8, 2010 by the Compensation Committee of the Company's Board of Directors (the "Compensation Committee"), and in the case of compensation decisions concerning the CEO, the Board (upon the recommendation of the Compensation Committee).

2010 Base Salaries Effective April 1, 2010

Below are the base salaries effective April 1, 2010 that were approved for our CEO and other Named Executive Officers.

Name	Title	Base Salary Effective April 1, 2010	Increase
Douglas D. Tough	Chairman and Chief Executive Officer	\$1,200,000	0
Nicolas Mirzayantz	Group President, Fragrances	\$ 500,000	\$25,000
Hernan Vaisman	Group President, Flavors	\$ 500,000	\$50,000
Kevin C. Berryman	Executive Vice President and Chief Financial Officer	\$ 500,000	0
Beth E. Ford	Executive Vice President, Head of Supply Chain	\$ 500,000	0
Dennis M. Meany	Senior Vice President, General Counsel and Secretary	\$ 414,000	0
Angelica T. Cantlon	Senior Vice President, Human Resources	\$ 315,000	0
Richard A. O'Leary	Vice President and Controller	\$ 275,000	0

2010 Annual Incentive Plan ("AIP")

Under the AIP, each executive officer, including the CEO, has an annual incentive award target based on the achievement of specific quantitative corporate and/or business unit financial performance goals. The weighting of corporate and/or business unit financial goals varies depending upon the role of each executive officer. For 2010 AIP, the Compensation Committee decided not to include goals related to non-financial strategic initiatives.

The corporate and business unit financial objectives for 2010 under the AIP relate to sales growth (excluding the effects of currency movements), operating profit (adjusted to exclude certain items approved by the Compensation Committee), gross margin percentage and working capital as a percentage of sales.

Each executive officer's AIP target award for 2010 is a stated percentage of his or her base salary. The Compensation Committee did not approve, nor in the case of the CEO did it recommend to the Board, any changes to the AIP target percentage of any of the Named Executive Officers, and the Board did not approve any changes to the CEO's AIP target percentage.

Based on the specific quantitative financial objectives, if threshold performance is achieved for the year, each executive officer may be paid 25% of his or her target award and if maximum performance is achieved for the year, each executive officer may be paid up to a ceiling of 200% of that officer's target award. Failure to meet threshold performance for the financial objectives, based on the performance goals, will generally result in no AIP award to the executive officer for that year.

2010-2012 Long-Term Incentive Plan ("LTIP")

As with prior LTIP cycles, the Compensation Committee has determined that the 2010-2012 LTIP cycle will consist of four segments, with each year during the cycle being a separate segment and the entire three-year period being a fourth segment. Under the LTIP, each executive officer, including the CEO, has an award target for each LTIP cycle segment, based on the achievement of specific quantitative corporate financial performance goals. Each segment during the cycle will be weighted as 25% of the executive's total target for the cycle.

For the 2010-2012 cycle, the corporate financial performance goals under the LTIP that the Compensation Committee reviewed and approved will relate to (i) improvements in the Company's earnings per share ("EPS") and (ii) total shareholder return ("TSR") relative to other companies in the S&P 500. For the first three segments of the LTIP cycle, the Company's EPS goal and the relative TSR goal each carry a 50% weight. For the fourth segment of the LTIP cycle, the TSR goal carries a 100% weight. TSR means the amount, expressed as a percentage, of market price appreciation or depreciation of a share of common stock plus dividends on a share of common stock, assuming dividend reinvestment at the dividend payment date, measured from January 1, 2010 through a specified year-end or cycle-end date. TSR will be calculated for the Company and for the S&P 500 so that the ranking of the Company as a percentile of the S&P 500 can be determined. The market price for purposes of calculating the TSR of the Company and the S&P 500 on each year-end or cycle-end date will be determined based on the average closing

price per share of each company's common stock over the period of 20 consecutive trading days preceding that date, as reported by a reputable reporting service.

The EPS goal for each applicable segment of the 2010-2012 LTIP performance cycle will be reviewed and approved by the Compensation Committee no later than the ninetieth day of each such segment. At its meeting held on March 8, 2010, the Compensation Committee approved the EPS goal for the first segment (2010) of the 2010-2012 LTIP cycle and the TSR goal for each of the four segments of the LTIP cycle. The Compensation Committee also approved the same EPS goal for the second segment (2010) of the 2009-2011 LTIP cycle. In connection with the 2008-2010 LTIP cycle, on February 1, 2009, the Compensation Committee also approved a one-year supplemental performance metric (based on improvement in operating margin in fiscal 2010 as compared to fiscal 2009), as described under Item 5.02 of the Form 8-K filed by the Company on February 5, 2010, which is incorporated herein by reference.

For the 2010-2012 three-year LTIP cycle, each executive officer has a range of potential awards, both above and below target, which are specified at the beginning of the cycle. The LTIP target amounts applicable to the Named Executive Officers are as follows:

Name	LTIP Target Amount	Change in LTIP Target from prior LTIP Cycle
Douglas D. Tough	\$2,000,000	0
Nicolas Mirzayantz	\$ 450,000	\$70,000
Hernan Vaisman	\$ 450,000	\$90,000
Kevin C. Berryman	\$ 450,000	\$50,000
Beth E. Ford	\$ 450,000	\$50,000
Dennis M. Meany	\$ 248,400	0
Angelica T. Cantlon	\$ 189,000	0
Richard A. O'Leary	\$ 137,500	0

If any LTIP payouts are to be made for the 2010-2012 cycle, 50% would be paid in cash and 50% would be paid in Company stock. For the 2010-2012 LTIP cycle, the number of shares of Company stock for the 50% portion that would be paid in stock is determined at the beginning of the cycle, based on \$42.01 per share, the closing market price on January 4, 2010, the first stock trading day of the cycle.

Depending on the extent to which the Company achieves the corporate performance goals for each segment of the LTIP cycle, a portion of the executive's LTIP award may be notionally credited on behalf of the executive, but any "credited" portion will not be paid until the

completion of the full LTIP cycle. If a portion of the executive's LTIP award is notionally credited for any segment during the LTIP cycle, that portion would consist of 50% cash and 50% shares based on the cash amount and number of shares earned by the executive for that segment.

Upon the completion of the LTIP cycle and all of its segments, the aggregate of all credited portions of an award may be payable to each executive, subject to the negative discretion of the Compensation Committee and, if the executive separated from employment with the Company during the LTIP cycle, subject to the terms of the Executive Separation Policy or any other separation arrangement between the executive and the Company.

2010 Equity Choice Program

On April 27, 2010, the Compensation Committee approved, and in the case of the CEO, on April 28, 2010, the Board (upon the recommendation of the Compensation Committee) approved the total value of the equity awards to be granted to each eligible senior executive, under the Company's Equity Choice Program (the "Equity Choice Program"). Under the Company's Equity Choice Program each executive who is eligible for a grant of equity awards will be entitled to choose from three alternative types of equity awards and will be granted those equity awards under the 2000 SAIP up to his or her total dollar award value. Grants of equity awards under the Equity Choice Program, based on each eligible executive's election, are anticipated to be made in June 2010, with a vesting date in April 2013. The range of Equity Choice Program potential total dollar award values and the actual approved 2010 Equity Choice Program award values for the CEO and each Named Executive Officer are as follows:

		2010 Equity Choice
	Equity Choice Program	Program Approved Award
Name	Potential Value Range	Value
Douglas D. Tough	\$750,000 - \$2,250,000	\$1,500,000
Nicolas Mirzayantz	\$ 225,000 - \$675,000*	\$ 600,000
Hernan Vaisman	\$ 225,000 - \$675,000*	\$ 600,000
Kevin C. Berryman	\$ 225,000 - \$675,000*	\$ 600,000
Beth E. Ford	\$ 225,000 - \$675,000*	\$ 450,000
Dennis M. Meany	\$ 150,000 - \$450,000	\$ 350,000
Angelica T. Cantlon	\$ 150,000 - \$450,000	\$ 350,000
Richard A. O'Leary	\$ 100,000 - \$300,000	\$ 200,000

* The above range was increased from \$200,000 — \$600,000.

Executive Separation Policy

At its meeting held on March 8, 2010, the Compensation Committee approved a change to the Company's Executive Separation Policy (the "ESP") to provide that the provision regarding "gross-up payments" would not apply to participants whose employment with the Company commenced on or after March 8, 2010. This provision states that if payments to a participant would trigger the golden parachute excise tax, the Company will pay an additional amount, a "gross-up payment," so that the after-tax value of the participant's payments and benefits under the ESP and other compensation paid by the Company would be the same as though no excise taxes applied. Effective as of March 8, 2010 this provision will apply only to participants hired prior to that date.

Other Information.

The information contained under Item 5.02 in the Form 8-K filed by the Company on February 9, 2010 regarding a discretionary bonus of \$76,893 awarded to Mr. Mirzayantz is incorporated herein by reference. In addition, a discretionary make-whole payment, relating to the pro-ration of the 2007-2009 LTIP cycle, in the amount of \$20,853 in cash and 427 shares of Company stock, was made to Ms. Ford on March 11, 2010.

CERTIFICATION

I, Douglas D. Tough, certify that:

- 1. I have reviewed this Quarterly Report on Form 10-Q of International Flavors & Fragrances Inc.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION

I, Kevin C. Berryman, certify that:

- 1. I have reviewed this Quarterly Report on Form 10-Q of International Flavors & Fragrances Inc.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION OF CEO AND CFO PURSUANT TO 18 U.S.C. SECTION 1350, AS ADOPTED PURSUANT TO SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the Quarterly Report on Form 10-Q of International Flavors & Fragrances Inc. (the "Company") for the quarterly period ended March 31, 2010 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), Douglas D. Tough as Chief Executive Officer and Kevin C. Berryman, as Chief Financial Officer, each hereby certifies, pursuant to 18 U.S.C. (section) 1350, as adopted pursuant to (section) 906 of the Sarbanes-Oxley Act of 2002, that, to the best of his knowledge:

(1) The Report fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934; and

(2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
